TROUBLE WITH ITALY

It is Not Feared at the State Department.

LATEST TALK ON THE SUBJECT.

A Rumor That Minister Porter Will Be Requested to Withdraw from Italy Not Believed in Diplomatic Circles at Washington.

WASHINGTON, April 13.—The dispatch from Rome, stating that in the event of the Italian government's not receiving a reply to its last communication to the American state department with regard to the New Orleans massacre, by April 14, the minister of the United States to Italy, Mr. A. G. Porter will be requested to withdraw from the country, was shown to the president. He declined to say anything on the subject, remarking that anything on this subject must come from Secretary Blaine. Subsequently the president walked over to Secretary Blaine's house and remained with him for some time.

The impression in diplomatic circles is that the dispatch is not correct in assigning a date for United States minister Porter's departure from Rome. A dispatch from Rome, Friday, gave Mr. Porter only twenty-four hours to remain unless the United States responded to Italy's last note. Minister Porter is kept fully advised of the progress being made by the United States in its investigation of the New Orleans affair. So far no report has been received by the department of justice from the United States district attorney at New Orleans of the result of his investigation, but the attorney general is kept advised as to what progress he is making. Until the matter is fully sifted it is not thought that any threats from Rome will cause this government to act in any other than a cautious and dignified manner.

Mr. Blaine was seen in regard to the Rome dispatch, but said he had nothing to say in regard to it.

CUSTOMS RECEIPTS.

A Falling Off of Nearly 50 Per Cent. Since April 1.

WASHINGTON, April 13.—The large falling off in customs receipts is attracting attention among treasury department officials who keep a close watch over government finances. The falling off in custom revenues since the beginning of April has been nearly 50 per cent, and if this ratio continues it may cause serious complications.

The decline in this class of receipts is attributable in a large degree to the removal of the duty on sugar, which is now admitted free. After the 1st of July the bounty on sugar will be paid, which will be another drain on the revenue to which it has not heretofore been subject. A slight increase in the internal revenue receipts is noted, but so slight as not to make an appreciable effect to the heavy decline in custom revenues.

Personnel of the President's Party.

WASHINGTON, April 13.—The arrangements for President Harrison's southern and western trip are all completed, but the personnel of the entire party to accompany him cannot yet be stated positively. As it stands now the president will be accompanied by M. S. Harrison, Mrs. McKee, Mr. and Mrs. Russell Harrison, Mrs. Dimmick, Mr. and Mrs. George W. Boyd, Private Secretary Haldorf and Messrs. Oulahan, Clark and Austin, representing the United Press, the Associated Press, and the Press News Association, respectively. Secretary Rush may accompany the party as far as El Paso, Tex.

Revolution in Ordnance.

WASHINGTON, April 13.—As soon as arrangements can be made, the war department will make an official test at Sandy Hook of the pneumatic disappearing gun carriage for a ten-inch breech-loading rifle, which was recently constructed in Boston. The gun carriage is expected to effect a revolution in ordnance.

Hope for General Spinola.

WASHINGTON, April 13.—Gen. Spinola's physicians and friends report a marked and continued improvement in his condition during the past twenty-four hours, and they now feel more hopeful than at any time during the past week.

General Rosecrans Out of Danger.

WASHINGTON, April 13.—Gen. Rosecrans is considered out of danger. He is reported as much stronger and expects to leave his room next week.

RAPIDLY RISING RIVER.

Great Fears of a Flood at Montreal, Canada.

MONTRÉAL, April 14.—Since last night the water in the river has risen slowly and steadily till it is now thirty-four feet from the top of the revetment wall. Above the wall is a temporary dyke, but as the structure has never been tested by a flood, its efficiency is uncertain. It is now raining heavily, and the ice block shows no sign of breaking up.

The lake ice is coming down in large fields and unless a passage opens soon it must go aground, when the danger of a disastrous flood is imminent. All the sewer gates were closed, and pumps are at work pumping the sewage over the walls. The merchants in the lower level of the town are removing their goods to the upper stories of their warehouses, and have employees stationed along the river front to report any immediate danger.

General Alger Not Dying.

CHICAGO, April 12.—A special to The Times from Detroit, says: The rumor here Saturday night that Gen. Alger was dying is false. He is a very sick man, having inflammation of the bowels, but the doctor thinks he will recover.

CHICAGO'S MASONIC TEMPLE.

Troubles of the Twenty-Story Structure.

British Comment.

CHICAGO, April 13.—It is reported that a large number of steel girder to be used in the construction of the Masonic temple have been legally tied up in the court here. The facts are as follows:

THE MASONIC TEMPLE.

THE MASONIC TEMPLE.

lows: A train load of iron belonging to the Masonic temple, which were garnished by the creditors of the Columbia Iron and Steel company, of Cincinnati, and held at the Baltimore and Ohio railroad depot here, have been released by the attorneys and turned over to A. Gottlieb, who is the contractor of the iron work for the Masonic temple, and to whom, as subcontractor, the Columbia Iron and Steel company were furnishing the material. The work on the temple will not be delayed, as Mr. Gottlieb has placed the order for the remainder of the material with other parties, who are ready to furnish it at once.

Englishmen Surprised.

Information has reached here from Europe that the plans of the Masonic temple, which have been received by Engineering, a paper published in London devoted to scientific engineering, have elicited much comment among the London architects, many of whom have been to the office of Engineering and inspected them. The marvelously short time (a few weeks) in which the foundation was made and the date contracted for the completion of the building (May 1, 1892) strengthens the opinions of London that the world's fair building will be completed on time. They seem to think that if the great twenty-story Masonic temple can be constructed on such short notice, that any number of large buildings necessary for the world's fair can be completed as rapidly as the necessities of the occasion may require. Probably they are not aware of the fact that the work has been carried on with the usual amount of Chicago hustling day and night, three forces of men working eight hours each, electric lights being used at night.

The Corner-stone All Right.

The newspapers recently published rather a sensational article to the effect that the corner-stone of the Masonic temple had crumbled and had been almost or quite destroyed by the workmen, one paper going so far as to say that a workman took the box, with its contents, home with him. The facts are these: A steel column runs through the back part of the stone, without, however, touching the round stone containing the box. The two sections of this column are connected at the bottom of the stone. To make this connection it was necessary to remove the stone temporarily. This was done, connection made and the stone replaced in the same place and condition as when first laid.

Badly Shaken Up by Lightning.

SPRINGFIELD, O., April 13.—During a storm Effie Miller, aged 15, of German township, was struck by lightning and critically hurt mentally and physically. Since that time she has been anything but sane, in her remarks being flighty and incoherent. She was carrying dinners to her sisters at school. She carried the basket in one hand and an umbrella in the other. Just as she reached the school-house door there was a deafening crash of thunder and a vivid flash of lightning, the bolt striking the umbrella which the girl carried and tearing it to shreds. The girl was also struck and fell heavily against the building, bruising herself considerably.

Well Known Railroad Man Dead.

WABASH, Ind., April 13.—Stephen B. Tinker, superintendent of motive power of the Cincinnati, Wabash and Michigan railroad, died at an early hour Saturday morning of pneumonia, aged 62 years. Mr. Tinker came to the Cincinnati, Wabash and Michigan, from the Grand Trunk, thirty years ago, and had his position continuously.

Literally Cooked to Death.

MILWAUKEE, April 13.—Joseph Hammen, an employee in the Schlitz brewery, met a horrible death yesterday by falling into a vat of boiling water. When he was missed the water was drawn off and his parboiled body found in the bottom of the vat. How the accident occurred is not known.

Mrs. Polk's Home.

NASHVILLE, April 13.—Nearly \$2,000 in taxes is due upon the home here of the aged widow of President Polk, and it is advertised to be sold. The property is very valuable, and Mrs. Polk is abundantly able to pay the taxes. It is hardly possible that she is ignorant that she is in arrears.

From the Trap to the Sanctum.

INDIANAPOLIS, April 13.—Rev. E. P. Whalen, pastor of the Fourth Presbyterian church in this city, has resigned, his resignation to take effect June 1. Mr. Whalen has accepted a position as associate editor of The Herald and Presbyter, of Cincinnati, the official organ of the Presbyterian denomination in the central division.

BIG FIRE IN CHICAGO

One of the Most Destructive for Years.

LOSS OF NEARLY HALF A MILLION

John M. Smythe & Company's Furniture House, the Largest Retail Establishment in the World; Kohl & Middleton's Dime Museum and Five Other Buildings Entirely Destroyed—Other Fire Losses.

CHICAGO, April 13.—One of the fiercest and most disastrous fires the Chicago department has fought in many years swept through West Madison street Sunday afternoon. The big Smythe building that extends from Union, half way to Halsted street was destroyed, and with it the contents of John M. Smythe & Company's furniture house, the largest retail establishment in the world. All that is left of Kohl & Middleton's West Side dime museum is a heap of bricks and charred timbers.

The losses were distributed as follows:

J. M. Smythe & Company, furniture, \$600,000; Mrs. LaBerge, \$75,000; A. H. Peats, wall paper, \$6,000; Kelly Brothers, \$30,000; Patterson block, owned by Ellis & Thompson, \$25,000; James Casey, brick building, \$20,000; Kohl & Middleton, dime museum, \$20,000; M. Irmann, cigars, \$20,000; A. Kaempfer, jewelry, \$1,000; Bair Brothers, hats and caps, \$1,000; J. M. Getman, Haymarket hotel, \$8,000; A. Gerhard, cigar shop, \$6,000. Total, \$85,000.

Insurance: J. M. Smythe, \$320,000; A. H. Peats, \$20,000; Neely Brothers, \$20,000; Mrs. LaBerge, \$5,000. Kohl & Middleton, of the dime museum, allowed their policy to lapse and lose everything.

Small Village on Fire.

MAUCH CHUNK, Pa., April 13.—Fire broke out Saturday night in the residence of J. L. Jenkins at Nesquehoning, and destroyed that building, together with a block of houses belonging to William Jenkins, and a new block belonging to John Verdon which had not been occupied. The town has no fire company.

When the fire started in the Jenkins house, he and his son were sick in bed. They were carried out through a wind just as the flames filled the rooms they had occupied.

Thomas A. Watkins while on the roof fighting the fire fell to the ground. His injuries are serious. The only insurance was on the Verdon block. Loss about \$16,000.

Big Fire in Springfield, Mo.

SPRINGFIELD, Mo., April 13.—The large brick building occupied by the Ames Packing Company and the Calhoun buggy and implement company was destroyed by fire last night. The loss will not fall short of \$75,000.

Electric Light Works Burned.

NORWALK, Conn., April 13.—The Norwalk and south Norwalk Electric Light company's building was destroyed by fire yesterday. Loss, \$20,000; partially insured.

SENATORIAL FIGHT IN FLORIDA.

Revolutionaries Already Resorted to in the Approaching Contest.

TALLAHASSEE, Fla., April 13.—The senatorial fight may be considered fully on. Call issued a long manifesto to Saturday, claiming to be in line with the Alliance. The tall men claim fifty-eight members in caucus.

An altercation between C. L. Harvey and J. Alexander on the Leon hotel porch, Saturday afternoon, arose from the senatorial fight. Harvey gave Alexander the lie; Alexander struck at Harvey, drew his revolver and leveled it at him. The latter also drew a revolver and fired at Alexander and retreated into the hotel. Alexander came to the door, when Harvey shot at him again, and fired a third shot at Alexander, who was struck and fell through the back door. The only damage was a slight wound in the toe of Albertus Voegt. From the first there was a lively stampede of guests, Senator Call being among them.

REMARKABLE SEQUEL.

W. C. Cash Acquitted of Murder and Remarries His Divorced Wife.

DALLAS, Tex., April 13.—In the case of W. C. Cash, on trial here for the murder of E. T. Young, the jury returned a verdict of acquittal. The case has caused great interest in the south. The killing occurred about a month ago in the street, and was the result of a social sensation. Young was said to have led Cash's wife astray in Kentucky, and then fled to escape Cash's vengeance.

Cash and his wife were divorced, and Cash followed Young throughout the States, finally overtaking and killing him in the streets of Dallas. Over the dead body he made a declaration of the cause of the killing. He was jailed and his divorced wife came to Dallas. This evening Cash and his wife were remarried at a hotel. At the close of the ceremony Cash fainted, and there was a sensational and pathetic scene.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

MONDAY, APRIL 13, 1891.

The New Constitution.

The principal features of the new Constitution are:

Prohibition of local and special legislation by the General Assembly.

Prohibition of lotteries.

Adoption of secret ballot.

Remedy of the evil of frequent elections.

The control of corporations.

Reform in taxation and exemptions.

A barrier to extravagant public expenditures, and provisions for the better administration of Governments—State, county and municipal.

Reduction of the grand jury from sixteen to twelve, and three fourths verdict in injury cases authorized.

Convicts not to be worked outside of the prison wall.

Provision for a reformatory for juvenile offenders.

Constitutional recognition given to the Railroad Commission.

Prohibition of the State and counties and municipalities aiding railroads or other corporations except to build turnpikes, gravel roads and bridges.

The elimination of the slavery section.

There has been a demand for most of these provisions for years, and there is not much doubt that the people will ratify the new Constitution. Its fate will be settled at the August election.

Has the Enemy Gone Mad?

That great apostle of a war tariff in time of peace—the Philadelphia Press—solemnly observes that “cheap sugar, in the last week, has turned every grocer’s shop into an argument for the McKinley tariff and protection.”

Now, what is the argument?

Sugar was made cheap by taking the tariff off was it not?

Would it be an “argument” for protection if, by the same means, we were to secure cheap woolen clothes, tin goods and steel?

Now come up squarely and answer.—Cincinnati Enquirer.

THE contract for printing 200,000 copies of the new Constitution for distribution among the voters was let to the Courier-Journal Company, at \$5,000—2½ cents a copy. That’s cheap enough. There are about 21,000 words in the document.

Weekly Crop Bulletin.

The Kentucky State Weather Service, in co-operation with the United States Signal Service, for the week ending April 11, 1891, says: “The temperature of the past week was considerably below the normal for the season. On Saturday, the 4th, and on Thursday, the 8th, frosts were general throughout the northern and central portions of the State. On the former date they were so severe as to seriously injure vegetation in exposed places. The precipitation of the week was also below the normal. Snow is reported from many places on the 5th and 6th, but in the general it was very light, not being sufficient in amount to cover the ground. The amount of sunshine was about the average, the early part of the week being partly cloudy and the latter generally cloudless.

The week has materially improved crop prospects. The warm, sunny weather of the past few days has dried the ground and spring plowing, which in most places was delayed by the wet soil, is now in full operation. Wheat and grasses are reported to be in the best possible condition. Tobacco plants look well and oats are being sown. The injury to fruits from frosts is not as great as it was at first thought to be; in fact, there appears to have been little or no damage done, except in the cases of a few very exposed places.

Stock and Crop.

During the first two months of this year the exports of cattle were larger by the enormous increase 42 per cent. than during the like period in 1890.

Kansas City and Chicago packers have recently purchased 80,000 head of Texas cattle at a cost of \$2,500,000, or an average of \$31.25 per head. It will require 250 trains of 16 cars each to transport this stock to the packing houses.

The Lexington Transcript says: “Hog cholera is raging in the Old Union neighborhood. James H. and Willard Huffman have lost about seventy-five, and Thos. Grace, W. H. Wood, Noah Boone and others have lost large numbers. The cholera is now extending to the chickens, many of which are dying.”

Progress.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

FOR STOCKMEN.

Partial List of the Stallions and Jacks Making the Season in This County.

Horses Whose Cards Have Been Printed at the Bulletin Office—All Classes Represented.

The class of stallions in this county has been greatly improved in the past decade. The “scrub” has seen his day in old Mason, and he is gradually retiring and giving place to the fancy bred roadster and saddler and thoroughbred trotter.

The farmers and other stockmen are learning that it is just as easy to raise a finely bred colt that will sell for a fancy price as it is to grow a “scrub” animal that hardly pays for its keeping.

One of the most profitable industries in Central Kentucky to-day is the raising of blooded stock—horses especially. The sales of thoroughbreds at Lexington amount to several hundred thousand dollars annually. It is a great and growing business, and the stockmen of Mason County are not making a mistake in turning their attention to it.

Mr. James W. Fitzgerald was the first to introduce the trotter in this county and devote a portion of his time and money to the breeding of that class of horses. It was only a few years ago that he established Limestone Stock Farm, but interest in the business has developed to a wonderful extent, and now the county is the home of quite a list of blooded horses, and new ones are being added right along.

The BULLETIN’s job department has been kept quite busy the past month or so printing horse and jack cards, setting forth the terms and giving the description and pedigree of the animals. Following is a summary of the cards printed to date, this season:

True Montrose, by Young Montrose; first dam by Eclipse. A fine saddle stallion. He makes the season at Howard Farrow’s stable, Mt. Gilead, at \$15.

Chamberlain’s Cough Remedy the Best of All.

LATROBE, PA., Jan. 27, 1891.

Messrs. Chamberlain & Co., Des Moines, Iowa: Gentlemen: You have helped me considerably with a good medicine and splendid advertising. Chamberlain’s Cough Remedy is the most popular cough medicine I handle.

Mrs. Griffith, wife of Supt. of the Latrobe steel works, always has your Cough Remedy in her house. I persuaded her to try it months ago; yesterday sold her the fourth bottle.

Samuel Osborne, a prominent contractor, tells me: “John MacMillan, you can’t say too much for Chamberlain’s Cough Remedy. Say all you can and I will put my name to it.”

Mr. MacMillan you remember asking me to try, just to try, a bottle of Chamberlain’s Cough Remedy for that terrible cough which I carried for months. Well! That cough is gone. Oh! My name is Miss Weis.”

Mr. Jos. Barnett, our bank cashier, had tickling in his throat for four or five nights: “Mac, one dose only of Chamberlain’s Cough Remedy and I will be until morning.”

Gentlemen, these are samples of hundreds that I know.

Think of the vast number of coughs sold. Chamberlain’s Cough Remedy excels them all. Sincerely yours,

JNO. C. MACMILLAN,
Proprietor of the Corner Drug Store.

Critical Moment Rapidly Approaching.

THE COKE WORKS TO START UP.

Strikers Hold Mass Meetings and Resolve to Continue the Strike—Fires in Some of the Furnaces Already Rekindled. Some of the Troops Withdrawn.

PITTSBURG, April 13.—The Eleventh regiment, National Guards of Pennsylvania, returned from the coke region to Pittsburgh late Saturday afternoon. The Tenth regiment will remain on guard duty in the coke region indefinitely. The companies have been redistributed and are now located at Morewood and Standard works, with a reserve to be at Mount Pleasant.

A Scottdale telegram says that the special convention of strikers adjourned Saturday evening after adopting unanimously a resolution to continue the strike.

One man and one woman were arrested Saturday charged with participating in the raid on Whitney's works Friday afternoon. They were lodged in jail at Greensburg. About twenty persons, mostly women, will be arrested on the same charge.

It is reported that the larger operators throughout the region will attempt to put their plants in operation.

Hundreds of eviction notices will be served on the occupants of company houses this week, and trouble will likely occur when an effort is made by the officers to take possession of the houses.

In an interview Mr. H. C. Frick said that he will make no concessions whatever, and that his proposed scale will either be adopted by the men or his plants will remain idle indefinitely.

Critical State of Affairs.

MT. PLEASANT, PA., April 13.—The intended movement of the producing coke companies for a general resumption has caused considerable excitement throughout the region. The labor leaders addressed mass meetings at various points yesterday in the hope of warding off the threatened movement.

A monster mass meeting will be held at Bessemer, two miles west of here tomorrow. The leaders say the strike will be prolonged until the operators give in.

The engines at the McClure works were fired last night and the company intends to try and resume work.

R. W. WATERMAN DEAD.

SAN FRANCISCO, April 13.—Ex-Governor R. W. Waterman died yesterday evening of pneumonia. He was ill only a few days. Mr. Waterman was elected to the lieutenant governorship and at the death of Governor Partlett, in 1887, succeeded to the chief executive office.

SENSATIONAL ARREST.

An Insurance Agent Accused of Forgery at Cleveland, Ohio.

CLEVELAND, O., April 13.—Insurance circles were greatly surprised Saturday by the arrest of A. C. Goodwin, an old citizen, on the charge of forgery. Goodwin has for years been the agent of the Michigan Mutual insurance company. It is alleged that he took two notes, one for \$154 and the other for \$153, in payment of premiums, sent into the company forged duplicates of them and disconnected the original at his bank.

Goodwin lives at No. 1385 Cedar avenue, and has always had the best of standing among his neighbors. His son, Homer H. Goodwin, is the receiving teller at the East End Savings bank, and a very estimable young man. When the news of his father's arrest was brought to him he was almost overcome with grief and could hardly believe the story. A number of well known business men and insurance agents next called at the jail and Goodwin was released on bail.

SICK AND DESTITUTE.

Terrible State of Affairs in Lewis County, Kentucky.

VANCEBURG, Ky., April 13.—A nephilic of la grippe is raging in the southern part of this county, about thirty miles from here. Whole families are stricken down at once and numerous deaths are reported. There is hardly a person in the whole section of country who has not fallen a victim to the dreadful disease.

In addition to this, the natives are suffering for food for both themselves and their stock. Persons passing through there have had to go from twelve to fifteen miles out of their way in order to get their animals fed. Wagons are leaving this city on an average of fifteen or twenty a day hauling grain and hay to the country. If the grass does not appear soon the damage to stock will be terrible.

Severe Cure for Bow Legs.

COLUMBUS, O., April 13.—A remarkable surgical operation was performed Saturday at Hawk's hospital on Sampson Carter, aged 16. Ever since childhood he has been afflicted with rickets. The bones of his legs became soft, causing bow-leggedness, and the operation was to straighten them. Each leg was broken by the surgeons in three places once above the knee and twice below. An incision was made with the knife to the bone, which was then cut almost through with a small chisel and then snapped. Subsequent treatment was that ordinarily used for broken legs. During the operation the young man was put under ether.

REPUBLICAN LEAGUE.

Arrangements Complete for the Annual Convention at Cincinnati.

NEW YORK, April 13.—All arrangements have now been completed for the forthcoming annual convention of the Republican League of the United States. For some days Secretary Humphrey has been receiving very flattering reports of the strength of the organization.

The convention, which will be the largest one in the history of the league, will begin its sessions in Music Hall, at Cincinnati, at noon on April 21. There will be 1,019 delegates present. There will be two delegates-at-large from each state organization of the league, two delegates from each congressional district in which there are one or more permanent Republican clubs, together with the president and secretary of each state league. All officers of the National League are delegates *ex officio*.

The National secretary, Andrew B. Humphrey, will open headquarters for the National League officers at the Grand hotel, Cincinnati, April 18. The twenty-five Republican clubs at Cincinnati have selected arrangements for the coming of the delegates and the success of the convention. The hotels have nearly all reduced their rates during the convention. All the trade associations have granted reduced rates, the railroads agreeing to sell tickets on the certificate plan. All the special certificates must be signed by Secretary Humphrey.

On the evening of April 21, a Republican League mass meeting will be held in the great Music Hall which has a capacity of 10,000. The meeting will be under the auspices of the league. Among the speakers invited are James G. Blaine, Chauncey M. Depew, John C. Spooner, ex-Secretary Allison, General Russell Alger, ex-Governor Foraker, Hon. J. M. Langston, William McKinley, Jr., and Thomas B. Reed, of Maine.

MAD DOGS.

A Number of Animals Bitten by Rabid Curs Near Xenia, O.

XENIA, O., April 13.—On Wednesday last a large dog belonging to a man named Speals, residing near Clinton, this county, went mad, and bit a number of dogs and animals. Several attempts were made to kill the dog, one of which was finally successful. Two valuable horses were bitten by the rabid animal.

Another mad dog started out from near the same place, and bit a large number of dogs and horses before he was finally killed at Lebow Springs, but not before he had bitten one or two boys there. The dogs were pursued for miles by men on horseback, and there is a great alarm in the country.

Mad Dog in Indiana.

SEYMOUR, Ind., April 13.—About two weeks ago a strange dog entered the premises of Mr. John Eastwood, two miles from the city, and bit his dog. Suspecting that the strange dog was mad, he chained his own dog. Yesterday after playing awhile with Mr. Eastwood's daughter Anna, he sprang the full length of the chain at her snapping and trying to bite. When her father turned from the city he found the dog very rabid, and at once shot the animal.

SHOT DOWN IN JAIL BY A MOB.

ZALAND, Wash., April 13.—Forty masked men broke into jail at 1 o'clock Saturday morning and shot to death John Rose and John L. Dwaris who were committed for the murder of Han Frederickson and his wife about a year ago. The men were confined in jail awaiting a new trial. The murder was committed in cold blood and was for the purpose of obtaining a piece of land on which Frederickson was living. The mob overpowered the jailers, and going to the cell where the prisoners were confined ridled their bodies with bullets and then quietly dispersed.

KILLED BY A FALLING WALL.

CINCINNATI, April 13.—By the falling of a wall, at the northwest corner of Fifth and Race streets, Saturday afternoon, the lives of fifteen stonemasons were endangered. Thirteen of them extricated themselves without injury of a serious nature, but Paul Glenn, the 17-year-old son of the contractor, was taken out a corpse, and William Gibson, aged 50, was entirely buried. He was dead when his body was found. A horse and cart was also caught in the wreck and the horse injured so badly it had to be killed.

The Weather.

Light rain; otherwise winds; warmer in northern portions; stationary temperature in southern portions.

Items of Interest Put in Convenient Form for Readers.

Apaches talking warpath.

The Farmers' Alliance of Lewis county, Ky., has decided to run a candidate for legislature.

Hilco Jensen, living near Cleves, Iowa, became insane from an attack of the grippe and tried to kill his wife.

Ex-Judge Henry Chapman died near Doylestown, Pa., at the age of 88 years. He was in Congress in 1853.

Henry Hartzell, a farmer near Alliance, O., missed \$10 of his savings and his hired man, James Howard, the same night.

Rev. Camille Loureatti has been appointed by the propaganda ministrants for American affairs of the Catholic church.

A steampipe burst in the boiler house of the Washington navy yard and Lieutenant Commander Pendleton was seriously burned.

Ed. Strange, of Oneonta, Ga., shot his bride of a month. He says he took his gun to shoot a hawk, and it was accidentally discharged.

The wedding of Charles Heiser, of Bloomington, Ind., was interrupted by his arrest on the charge of seduction preferred by another woman.

Archie Downard, one of the assassins of Marshal Voglewood, of Cynthiana, Ky., has been convicted and sentenced to the penitentiary for life.

There is distressing destitution in Lewis county, Ky. The epidemic of grippe in the southern part of the county has prostrated nearly every inhabitant.

At a lumber camp near Reno, Ark., Jack Cassidy crushed his wife's skull with a club, and killed two men who interfered, and was then shot and killed.
